<p>Notes: For even-numbered years (e.g., fiscal year (FY) 2014), federal CHIP allotments are calculated as the sum of last year’s allotment and any shortfall payments (e.g., contingency funds), increased by a state-specific growth factor. In FY 2013, there were no contingency fund payments. For even-numbered years, a state can also have its allotment increased to reflect a CHIP eligibility or benefits expansion; some states have applied for these allotment increases, but the Centers for Medicare & Medicaid Services (CMS) has not named them nor finalized their additional allotment amounts, if any.</p> <p>Source: MACPAC communication with the Centers for Medicare & Medicaid Services (CMS), February 2014.</p>
